

I am writing regarding the introduction of Low Power FM (LPFM) service.

It has come to my attention that this LPFM will take priority over current FM translator services used by K-LOVE Radio in Rocklin, CA.

I am writing to support the continued use of these translators by K-LOVE.

1) K-LOVE provides good clean alternatives of music and entertainment for my children and grandkids.

2) Replacing K-LOVE with other LPFM stations opens the doors for broadcast of less desirable such as shock jock (Howard Stern type), Rap etc that certainly is not a good example for our youth.

These LPFM stations (known in the past as pirate station) are known for their so called alternative

programming with vulgar language and off color humor. K-LOVE sets a much better example for our youth

than these pirate stations.

3) It is in the public interest to keep K-LOVE on as many translators as possible. K-LOVE provides good sound moral bible based entertainment for our youth that they can not

get from most other broadcast stations. It provides a moral standard that most other radio

station's programming fails to provide.

4) I encourage the FCC to allow K-LOVE to continue to use all the translators they currently have

across the entire country. Furthermore, I would like to see K-LOVE allow to continue to expand to even more translators.

Thank you for your consideration.
